Professional Summary

I am a highly dedicated Computer Science student with a strong technical foundation and hands-on experience as a military network technician. Proven expertise in managing complex network systems, with strong leadership skills demonstrated through team management. Excellent problem-solving abilities, a collaborative team player, and a passion for continuous learning and innovation. Experienced in developing AI-driven solutions, with a future goal of pursuing an MBA to bridge advanced technology and strategic business management.

Education

Bachelor of Science in Computer Science, Specialization in Cybersecurity

The Open University of Israel, Tel Aviv, Israel | Expected Graduation: 2027

- Successfully completed 78 credit points with a current GPA of 85.
- Future Plan: Intend to pursue a Master of Business Administration (MBA).

Professional Experience

Israel Defense Forces,

Head of Network Management Team

April 2022 – October 2024

- Led a 5-soldier IT team to manage and secure base-wide communication networks, telecommunication infrastructure, and defense systems, including dedicated support for the General's office.

Head of Information Technology Team

November 2024 – February 2026

- Became a reservist and head of the IT department of five soldiers in a new unit.
- Developed a relocation plan for transitioning communication equipment to new base.

Projects

- **Autonomous AI Trading Agent:** Developed and deployed a backend server that executes independent financial trading strategies utilizing an advanced AI agent.
- **New Base Relocation Project:** Led the IT infrastructure setup for a new military base, independently driving procurement strategies and equipment selection. Managed a 5.5 million NIS telecommunications budget.

Skills

- **AI Coding & Automation:** CRM, Gemini, Cursor, Claude Code, Codex, VS Code.
- **Programming Languages:** Java, Python, C, C++, TypeScript.
- **Frameworks:** React Native, PyTorch, Unreal Engine.
- **Libraries:** Pandas, NumPy, Deep Learning (LSTM), yfinance.
- **Cloud, APIs & Infrastructure:** AWS, Google Cloud, Linux/Bash, Git/GitHub, MySQL, Alpaca Trading API, Telegram Bot API.
- **Cybersecurity & CS Concepts:** Defensive Programming, Secure Coding, Applied Cryptography, Algorithms, data structures, OOP.
- **IT & Network Management:** Base-wide Communication Networks, Telecommunication Infrastructure, Defense Systems, System Administration.
- **Leadership & Management:** Team Leadership, Project Management, Mentoring, Problem Solving, High-Pressure Execution.
- **Youth Leadership & Mentoring:** 3 years at Maccabi Tzair Youth Movement.
